

ABOUT MBRAUN

Whether your work involves gloveboxes, inert gas purification, thin-film technology, isolators or custom system solutions in clean environments, MBRAUN has the right solution for you. We're the market leader in providing customer-specific controlled environment solutions. We continue to develop world-class core technologies and then adapt them to an application, yielding the most efficient clean environments based on our intimate knowledge of the many markets we serve.

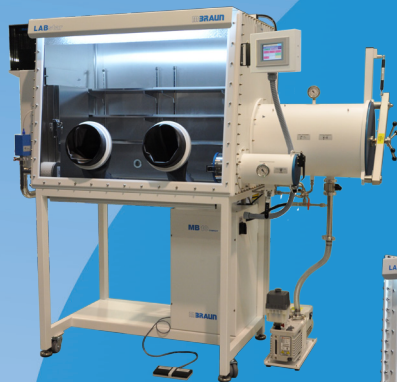

MBRAUN employees share in the vision of creating a world-class company that can be your #1 creative partner. Our team works closely with you to tailor products and services that meet your clean environment needs.

STANDARD GLOVEBOX WORKSTATIONS
